

This file will contain:

User stories implemented. Refer to the user stories in milestone 2 document.

- Mention any new user stories implemented.

What group members were paired with whom.

Which parts of the project are implemented by which pair.

- Additionally, document this in source code as well; e.g., `/* Implemented by: John and Bob */`

Have any design changes or unit test changes been made from earlier milestones?

Include whatever else might be considered important.

Include a print screen (or several) of the history of the wiki page update.

- Wiki pages on github have wiki edit history, including the author of the change and the time of the change. `*include this*`

At the end of this pdf, copy-paste the git log from the repository. (the longer it is, the better; and the more commits, the better)
